DIPLOMA IN VEDIC ASTROLOGY

Subject and Syllabus

2022-23

Syllabus

DIPLOMA IN VEDIC ASTROLOGY

DURATION:-1 YEAR

(419) ASHTAKAVARGA

1. Definition and Concept of Ashtakavarga Charts

2 Types of charts:

Ashtakavarga Charts or Sarvashtaka Varga charts (SAV)

- Sarvashtakavarga General principles.
- Application rules of Sarvashtaka Varga charts

Bhinnashtaka Varga charts.

- Characteristics & General Principles of BAV charts.
- Rules of application of Bhinnashtakavarga (BAV)

charts Prastarachakra charts

- Casting of prastar varga charts.

3 Reductions made in Ashtakavarga system and their importance.

- Trikona Shodhana.
- Ekadhipatya Sodhana

4 Shodya Pinda,

- Rasi Guna Karaka - Graha Guna Karaka
- Greh-Pinda , Rasi-Pinda , calculations
- Utility of Shodya Pinda and its calculations.
- General Predictions made using Shodhya Pinda.

5 Importance of concept of Kaksha

- Importance of Kaksha in studying the transit

- Technique to predict results of transit based on concept of Kaksha
- Importance of Kaksha in studying transit in slow moving planets

6 Scope of applying Ashtakvarga to divisional charts

7 Longevity.

- Various methods for calculating age.
- Practical Study

Prashna Shastra

1. Basic Principles of Horary astrology.

2. Method of putting queries, handling more than one query.

3. Study of Tajik Yogas - Ithasala Yoga, Esharapah yoga, Naktha Yoga, Yamaya Yoga, Kamboala Yogas etc their dynamics and utility in horary.

4. Concept for analysing different type of queries.

- Queries related to accomplishment of work- Theft, Diseases, Children, Business, marriage, litigation profession etc.
- Success or Failure in work, If success then timing of event.

5. Events related to different houses. Use of Karyesh and Lagnesh in horary.

7. Concept of aspects used in horary.

- Hora aspects
- Tajaka aspects

8. Timing of event of Prashna through Tajik Yoga through

- Strength of Lagna and Moon;
- Strength of planets
- Success / Failures of query .
- Timing of event.

1. Concept of measuring strength of planets.
2. Two types of strength- Strength of planets, Strength of Houses.
3. Shadbala. (Six fold Strength)
 - a. Positional, Directional, Kaal, Motional and Natural Strengths of Planets.
4. Importance of Shadbala in giving Phaladesh
5. Calculation method and meaning of all six types of Strengths
 - a. Sthanabala:-
 1. Ochcha bala 2 Drekanabala 3. Saptavargaja bala 4. Kendra Bala
 5. Ojayugma bala
 - b. Dikbala . East, West, North, South houses and Powerless points and Calculation Of strength – Digbala Arc etc.
 - c. Kalabala (Nathonnatha Bala, Paksha Bala, Thribhaga bala, Abda Bala, Masa Bala, Vara bala, Hora bala, Ayana bala, Yuddha bala,
 - d. Cheshtabala
 - e. Naisargikabala
 - f. Drikbala
 6. Based on Strength of a House, Calculation of Isht and Kasht Phal,
 7. Predictions by Sixfold Strengths.
 8. Ishta and Kashta balas/phalas and their interpretations.
 9. Bhavas Bala (House Strength) -- Bhavadipati Bala -- Bhava Digbala (Nara, Jalchara, Chashuspada, Keeta rasis) -- Bhava Drishti bala (Aspecting and Aspected planets). -- Total Bhava Bala and its interpretation -- Vimshopaka bala
 10. Importance and applications of Shadbala and Bhavas bala in interpretation and delineation of the natal chart

Judgement Of Bhavas.

1. Classification of Bhavas and judgement Principles based on Laghu Parashari
2. Judgement of Bhavas with respect to Ascendant, Sun and Moon.
3. Placement effect of each of 9 Planets in 12 Rashis (Signs)

4. Placement effect of each of 9 Planets in 12 Houses (Bhavas)

5. Effect of each house Lords in different 12 Bhavas

6. Detailed study of Concept of Bhavat Bhavam –

7. Principle of Karakobhavanashaya

8. Case Studies for the following important yogas

- Parivarthana Yoga
- Neechbhang Raj Yoga
- Viparit Raj Yoga
- Why Yoga failed to deliver the promise

9. Comparison of Yogas in the natal and the navamsa charts

10. Karkas for Judgment of various issues relating to each Bhava.

11. Importance of dispositor in giving predictions.

(421) LONGEVITY.

GURUKUL

EDUCATIONAL AND RESEARCH INSTITUTE, HANUWAR

विधिः सम्पत्तिः अस्ति

1. Different techniques and methods to ascertain longevity of the native

2. Calculation of longevity: How accurate is age when calculated mathematically

3. Role of the following in longevity and good health of the native

- 22nd Drekkana from Lagna
- 64th Navamsa from moon
- 88th Pada
- Mrityu Bhagas
- Gandanths
- Markas & Marka Sthan
- Chhidra Graha

4. Role of Tithi Sandhi, Lagna Sandhi, Nakshtra Sandhi and Diva-Ratri Sandhi in effecting the longevity/ health of the native

5. Methods of finding longevity : Three group methods,

6. Balarishta Doshas

7. Importance of Moon in finding Balarishta.
8. Important combinations for Alpayu, Madhyayu and Poornayu.
9. Calculation of longevity: How accurate is age when calculated mathematically
 - Pindayur Daya – When Sun is strong in a horoscope and its calculation Principles
 - Amsayur Daya - When lagna is strong in horoscope and its calculation Principles.
10. Normal life contributed by planet with and without haranas and Different views on Bharanas and haranas.
11. Nisargika Ayu : • When Moon is strong in horoscope • The years allotted to planets as per nisargika Ayu • Different views on calculation of Naisargik Ayu Marakas - Identification of Maraka Sthanas and Maraka Planets in a horoscope –
12. 22nd Drekkana from Lagna, 64th Navamsa from moon, their concept and effects * Importance of Drekkana and its utility.

(422) MEDICAL ASTROLOGY.

1. Concept and Historicity of Medical Astrology
2. Definition of Health as per ancient tradition and its relevance with medical astrology and planets tridosh and elements
3. Bhavas and the relevant parts of the body and its physiological and psychological application
4. Planets and its relation to the various body parts and health and disease
5. Nakshtra ruling body parts and disease
6. Factors for good health in the natal chart
7. Factors of disease in the natal chart
8. Role of lagna lord and lords of the trik houses in health/ disease
9. Retrograde planets, vipareet rajyog, Mrityu Bhagas and Gandanth – Their role in medical astrology
10. Drekkana and its importance in Medical Astrology
11. 22nd Drekkana and 64 Navamsha – its importance in Medical Astrology

12. Factors related to Ancient, Astrological and modern medical concepts to study the following diseases

a. Vitiligo (White Skin Spots)

b. Piles

c. Eye disease

d. Blindness

e. Appendicitis

f. Heart Disease

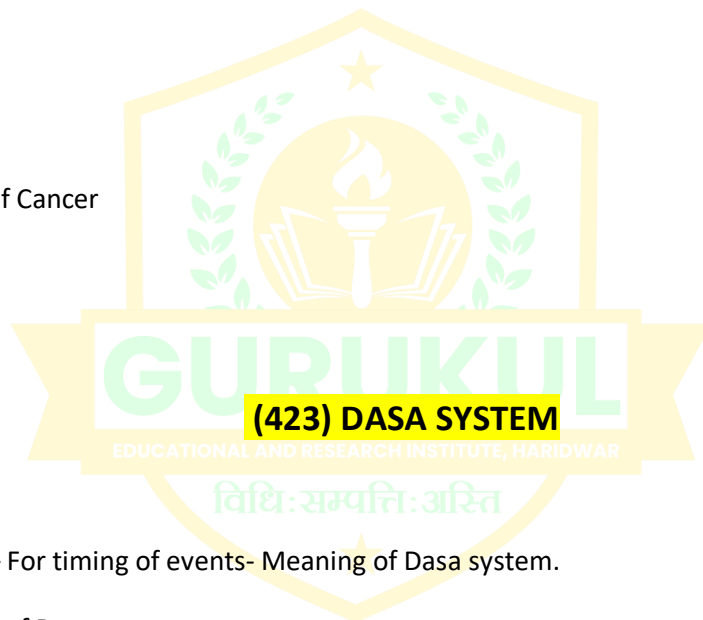

g. Diabetes

h. Paralysis

i. Epilepsy

j. Various type of Cancer

k. Psoriasis etc

1. Dasa system – For timing of events- Meaning of Dasa system.

2. Various types of Dasa systems

3. Levels of Dasa system: Maha Dasa, AnterDasa, Pratyantar Dasa etc

4. Importance and Utility of Vimshottari Dasa Systems.

5. Periods & Sequence of Planets in Vimshottri Maha Dasa systems.

6. General features of Mahadasa of Sun, Moon, Mars, Rahu, Jupiter, Saturn, Mercury, Ketu and Venus in the Vimshottari Dasa

7. Technique to understand whether Maha Dasa is Favourable or not

8. Importance of Maha Dasa of various planets and their results for important events in life.

9. Results of Dasa of planets as per their placement in the chart.

10. Effects of Anter Dasa of various planets with in Maha Dasa of other planets.
11. Effects of PratyantaraDasas of various Planets with anter Dasa of other planets. of VimsottariDasa system.
12. Yogini dasa, its results of Mahadasa and Antardasas
13. Relation of Transit with Mahadasa
